

Stu Asbel
Friends of Boulder Knoll, Farm Manager
and Co-Founder, All Corners Farm, Inc.

Farmer Stu first learned the art of growing food from his Dad, Dr. David Asbel, in suburban Philadelphia. He worked in early childhood education for twenty years as a teacher, program specialist, and director, incorporating micro farming into all his programming, while researching and experimenting with companion planting and other passive methods of organic growing.

In 2018, with his wife Cori, Stu founded All Corners Farm, a Cheshire based nonprofit dedicated to growing toxin-free food and distributing it to organizations that support the food insecure in New Haven County. 2021 is the third season Stu has served as the Boulder Knoll Farm manager. He looks forward to continuing the partnership with Friends of Boulder Knoll for years to come.
